

Don't take it seriously  
We're simply .. take over  
Take it up, taking up, taking up your heart  
motherfucking nature  
Don't act your curious mate  
We alien nations take over  
We pick you up, pick you up, pick you time  
Sucks hard like a diamond

It's the place you really want, to let them go  
It's the place you really want, to let them laws  
Do you really want to know?

Don't take it seriously  
We're simply .. take over  
Take it up, taking up, taking up your heart  
motherfucking nature  
Don't act your curious mate  
We alien nations take over  
We pick you up, pick you up, pick you time  
Sucks hard like a diamond

It's the place you really want, to let them go  
It's the place you really want, to let them laws  
Do you really want to know?

You are a ghost, I'm expecting this voice  
Don't chase me, I blaze a jut we scream  
Cause the room service was smelly, got no flow  
You ain't the oyster, lobster  
French bread and butter
