

# Come Over

Cimorelli

It's been a long time since i've seen you.  
You called me up, when it was Just what I needed.  
It's been a long week, and I need.  
I need a good time, I need a good time.

(Woah oh ah oh) Sat in your car  
(Woah oh ah oh) Windows down  
(Woah oh ah oh) Where we going  
(Woah oh ah oh) And that's when it hit me

My garage is the perfect place to dance, dance.  
Stack the speakers up call all my friends, friends.  
You and me, Who knows where this night could lead?  
(Yeah, Yeah) So come over, over, over.  
So come over, over, over.

Now turn it up and turn down the lights.  
It's me and all of my friends on a Friday night.  
Yeah we're dancing, it's getting late.  
Who needs a DJ, Who needs a DJ.

(Woah oh ah oh) That's my song  
(Woah oh ah oh) Everybody move  
(Woah oh ah oh) Sing along  
(Woah oh ah oh) And that's when it hit me

My garage is the perfect place to dance, dance.  
Stack the speakers up call all my friends, friends.  
You and me, Who knows where this night could lead?  
(Yeah, Yeah) So come over, over, over.  
So come over, over, over.

Oh speakers on the table  
So many I can't see the table  
We got way, way, way too many people in here.  
Everybody's taggled up like twister

Turn on the music, sing along to it  
Take a last look, and some picture proof (Yeah)  
I Just wanna wake up and know  
It was the best night of our lives

(Ooh) My garage is the perfect place to dance, dance.  
Stack the speakers up call all my friends, friends.  
You and me, Who knows where this night could lead?  
(Yeah, Yeah) So come over, over, over.  
So come over, over, over.  
So come over, over, over.  
So come over, over, over.  
So come over.
