

# Sleep Underground

Circa Survive

You play that role for years  
There's nothing else  
But you don't need your ears  
To listen to yourself  
Don't talk back  
Keep your lips closed tight

Sleep underground tonight  
Sleep underground tonight  
Sleep underground tonight  
If you were meant to save me  
If you were meant to save me  
Then I didn't realize 'till now  
'Cause this is just for you and I alone  
This is just for you and I alone  
This is just for you and I alone  
This is just for you and I alone

Sleep underground tonight  
Sleep underground tonight  
This is just for you and I.
