

Think of Me When They Sound

Circa Survive

How long will it take
How long will you wait for me
I don't want to bring you down
Anymore more then I have
I just want the things you had
And it means everything

How long will you wait
(We won't make it out)
I can't stand to feel this way
(We won't make it out)

Church Bells
Church Bells

How long will you wait
(We won't make it out)
How long will you wait for me
(We won't make it out)
How much can you take
(We won't make it out)
How long will you wait for me
