I've been knowing her for years I've been seeing her for years She got dark, dark wavy hair With a voice like she just don't care She got a skirt with a halter top She's got a dad who never gave a fuck She drinks a beer with a malted top She got knocked up in a pickup truck But she got engaged when she was nineteen To this dude who was acting insane Had a .45 that he always cleaned Said one day one day one too many days Now she ducked and she ran away Never to be heard from, never to be seen I check the cover of a magazine I'm just wondering how, just wondering how

But what you've done here Is put yourself between a bullet and a target And it won't be long before You're pulling yourself away A bullet and a target Between a bullet and a target
