

As You Please

Citizen

Well-formed
In tone your everything
Winsome through the void
Resound my everything
Surround all of me (surround all of me)
You don't need anything (you don't need anything)
In the barest form, I'll lead you there
Reach out for anything (reach out for anything)
Reach out for me when you're lost

Come as you please, as you want
I'm needing something to fill in the void
Come as you please, just as you thought
I don't remember you this black and white

Tend to me
Make me your everything
Caught in the midst of the flood
Your reflection in rainfall
When I don't remember anything at all

Come as you please, as you want
I'm needing something to fill in the void
Come as you please, just as you thought
I don't remember you this black and white

Drown in my veins and I am yours forever
Drown in my veins and I am yours forever

Come as you please, as you want
I'm needing something to fill in the void
Come as you please, just as you thought
I don't remember you this black and white
Come as you please, as you want
I'm needing something to fill in the void
Come as you please, just as you thought
I don't remember you this black and white
