

Open Your Heart

Citizen

I saw the hands reaching outward
I'm really sad facing backwards

Open your heart to me
Open your heart to me

Well I felt the dam pushing past me again
And I took the hand, you burn but you're cold
You are dead in your dreams I wish you wanna be
I exist when you're weak, you burn but you're cold
You're cold, you're cold, you're cold

I can't begin to remember
I'm laying naked and fortunate

Open your heart to me
Open your heart to me

Well I felt the dam pushing past me again
And I took the hand, you burn but you're cold
You are dead in your dreams I wish you wanna be
I exist when you're weak, you burn but you're cold
You're cold, you're cold, you're cold
You're cold, you're cold, you're cold

Don't give it back to me
Don't give it back to me
Don't let me know
We're happy to go if you want
Don't give it back to me
Don't give it back to me
Don't let me know
We're happy to go if you want

Well I felt the dam pushing past me again
And I took the hand, you burn but you're cold
You are dead in your dreams I wish you wanna be
I exist when you're weak, you burn but you're cold
You're cold, you're cold, you're cold
You're cold, you're cold, you're cold
