

Roam The Room

Citizen

Did the weight and all the pressure bleed you out
You got away but I still carry you around
I carry you around
I want know what I've been fighting for
I wanna know what I've become
And is it something else I'm waiting for
Or is the damage finally done
Cause I'm done
I'm done

And it's hard to watch you roam the room
To watch you from the (wall)
And it's all I got to think about at times
To watch you roam the room
To watch you from the (wall)
And every day gets old

Did you speak the words or say nothing at all
And how'd you find a way to speak up when I call
And when your friends say I'm a waste of time,
Then you can find out on your own
And if this is coming down, then pick a side
Then you can decide where you go

And it's hard to watch you roam the room
To watch you from the (wall)
And it's all I got to think about at times
To watch you roam the room
To watch you from the (wall)
And every day gets old

Cause I'm done
