

# The Other Side

Civil Twilight

I could hear the music from across the valley  
Where the smoke hangs in the pine trees  
And I could hear the people shouting and jiving  
People not like me

Something in the water told me  
I could walk across this valley  
I could break down those walls  
And show her my heart  
Something in the water told me  
There's a better place I can be  
Right there, right there waiting on the other side  
Waiting on the other side

She says I should be there  
But something's telling me to stay away  
Instinct or fear, I can't say  
But there's only one pathway  
From where I am and where you are  
Only one light in the darkness, darkness

Something in the water told me  
I could walk across this valley  
I could break down those walls  
And show her my heart  
Something in the water told me  
There's a better place I can be  
Right there, right there waiting on the other side  
Waiting on the other side, the other side

I never knew what I was doing  
I was too young to see  
I never knew what I was doing  
But now I know that I could be  
I could be your shining stone  
If you let me

Something in the water told me  
I could walk across this valley  
I could break down those walls  
And show her heart  
Something in the water told me  
There's a better place I can be  
Right there, right there

Something in the water told me  
I could walk across this valley  
I could break down those walls  
And show her heart  
Something in the water told me  
There's a better place I can be  
Right there, right there waiting on the other side  
Waiting on the other side  
Waiting on the other side  
Waiting on the other side
