

Replaceable

CKY

I have no pity
I have only hate
Love to see you suffer
I'm obviously doing great
And I'm high in the desert
Wild like a wind
Proud to be a genius
The meanest I've ever been

You need attention
You're replaceable
And have I failed to mention?
You're replaceable
Yeah you're replaceable

My mind is my weapon
Strong from within
And I will live forever
The phoenix is born again
Yet you lie, deny, and steal
Delusional for real
So when you're in my presence
You should fuckin' kneel

You need attention
You're replaceable
And have I failed to mention?
You're replaceable
Yeah you're replaceable

You need attention
You're replaceable
And have I failed to mention?
You're replaceable
Yeah you're replaceable

You need attention
You're replaceable
And have I failed to mention?
You're replaceable
Yeah you're replaceable
