

Wiping Off the Dead

CKY

Satan Spawns
Incubating entities clone

Save us all
The never-ending dreadfully grows

Wiping off the dead

Slaves of wrong
Sanctify the rest of these trolls

But don't lose sight of the end
You're wiping off the dead
Yeah, brave the long road ahead
Still wiping off the dead

We are the truth, we are the light
We are the dark, we are the night
We are the rules, we are the right
We are the ones, we have to fight
Right now

Stay withdrawn
Distance as mentality dulls

On and on
Restless children set to explode

Hey

Don't lose sight of the end
You're wiping off the dead

Yeah, brave the long road ahead
Still wiping off the dead

Hey
Hey
Hey
Hey

We are the truth, we are the light
We are the dark, we are the night
We are the rules, we are the right
We are the ones, we have to fight
