

Set You Free

Clan of Xymox

She comes, she goes
She needs anomalies
She hides her love from me
She seeks a new body

I looked at you
You looked at me
You still want me to set me free
I looked at you
You looked at me
Uou still want me to set me free

Set you free, set you free
Set you free, set you free

Once so close, now so far
Once together and now miles apart

She says, she needs some space
To heal, to grow, to learn to find herself back again

I never thought this day will come
I truly thought you were the one
I looked at you
You looked at me
You still want me to set you free
Set you free, set you free
Set you free, set you free
Set you free, set you free
