

## Edit Away

### Claw Boys Claw

Faith, edit away, it's not important  
Fever, edit away, it's where I stand  
Another hour come and kill my where I stand  
I had enough of you, I had enough of you  
Fame, edit away, I say now I had enough of you  
Got my eyes, my ears, my fingers, got my soul, the energy  
Straight all my way and that's the only way I walk down my way  
Here's where I fight, a lover told me not to come here, stay in  
side  
I had enough of you, I had enough of you  
Got my eyes, my ears, my fingers, got my soul, the energy  
I got myself, that's all I got, while fire is in me  
I had enough of you, I had enough of you  
Got my eyes, my ears, my fingers, got my soul, the energy  
I got myself, that's all I got, while fire is in me
