Stay away, I don't know where I'm standing, a dead dog, feel al right

I get it on, I need a face to laugh on but that is more of the same everynight

Sugarlite blond, sugarlite blond

They say my bones are the one understanding, I go down in the rear

You got me crawling to my heart's surrender

The state of phase you brought me in, you're no good

You got me howling at the moon tonight, understood

You got me howling at the moon tonight, hear me say

You got me howling at the moon tonight, come on babe

You got me howling at the moon tonight, just stay and get your way

Sugarlite blond, sugarlite blond, sugarlite blond

You're my sugarlite blond

You got me howling at the moon

Sugarlite blond, sugarlite blond, sugarlite blond

You're my sugarlite blond

Stay away, I don't know where I'm standing, a dead dog, feel al right

I get it on, I need a face to laugh on but that is more of the same everynight

You're no good, sugarlite blond, sugarlite blond, sugarlite blo nd

You're my sugarlite blond

Sugarlite blond, sugarlite blond, sugarlite blond, you got me h owling at the moon tonight $% \left(1\right) =\left(1\right) +\left(1\right)$
