

## Action

Clem Snide

Love can be hard but it was so smart of you  
'Cause if you spend too much time  
Alone in your mind, you're through

And if the bedroom feels cold  
Then we can unfold tonight  
And your hand I will kiss  
So unclench that fist, it's so tight

You're everything I want to do  
'Cause when there's love there's action  
You're everything I want to do  
'Cause when there's love there's action

Give it away, don't make 'em pay and you're free  
And if you're alone, just pick up the phone, it's me  
I'll bring nothin' to eat but I can tickle your feet till you smile  
Yeah, I know they're closing the store  
But let's lay on the floor a while

You're everything I want to do  
'Cause when there's love there's action  
You're everything I want to do  
'Cause when there's love there's action

When there is love  
When there is love  
When there is love  
When there is love

Give me a shove and I'll fall in love, don't wait  
'Cause if a civil war buff  
Can love a diamond in the ruff, it's great

You're everything I want to do  
'Cause when there's love there's action  
You're everything I want to do  
'Cause when there's love there's action

'Cause when there's love there's action  
'Cause when there's love there's action
