

# All Kinds of People

Cliff Richard

If I got a hammer  
And you got some wood  
Now a hammer alone without no wood  
That ain't no good

But put them together  
And wham, bam, pow  
And that's a house  
We're building now

Now I didn't know you  
No, you never met me  
But here are we in harmony  
And there's a new house standing on the ground  
For it takes all kinds of people  
Working together to make this whole world go 'round

I've got a tractor  
And I've got some earth  
Now a tractor alone without that earth  
Ain't got no worth but

Put them together  
And wham, bam, pow  
And that's a crop  
We're reaping now

And if you live in Spain  
Which is over the sea  
And we're as British as can be  
We prove the truth is simple but profound  
For it takes all kinds of people  
Working together to make this whole world go 'round

I've got a cup  
I've got a saucer  
I've got some leaves  
Here's hot water  
But 'til they get together, there's no tea

I've got a spade  
I've got an acorn  
I've got some ground  
I've used this rake on  
But 'til they get together, there's no tree

People and things gotta get together  
Though they're birds of a different feather  
They've got to get together every chance

You may be Greek or French or Spanish  
But you'll make those frontiers vanish  
Who needs to know the language  
When you dance, when you dance  
When you dance you don't need to know the language

Get you, get together, now

We're together now, we're together now  
Dance together now

You may Greek or French or Spanish  
When you dance, how's your Spanish

We'll dance together and it's true  
But must work together, too  
If we want a future that is sound  
For we found, all we need to succeed  
Is all kinds of people working together  
To make this whole world go 'round
