

## Catch Me

Cliff Richard

Catch me I've fallen for you  
Catch me I've fallen for you  
Catch me I've fallen for you

What was in that kiss you gave me  
Never felt like this please save me  
Catch me in your arms I've fallen for you little girl

Someone pulled a rug and flipped me  
How was it for her you slipped me  
Catch me in your arms I've fallen for you little girl

I never thought I'd tumble head over heels on my face  
But here I go tumbling all over the place

Make my gypsy heart go crazy  
Kiss me once again whoops a daisy  
Catch me in your arms I've fallen for you little girl

Catch me I've fallen for you  
Catch me I've fallen for you  
Catch me in your arms I've fallen for you little girl

I never thought I'd tumble head over heels on my face  
But here I go tumbling all over the place

Make my gypsy heart go crazy  
Kiss me once again whoops a daisy  
Catch me in your arms I've fallen for you little girl

Catch me I've fallen for you  
Catch me I've fallen for you  
Catch me I've fallen for you little girl.
