

Fabulous

Cliff Richard

Well I always knew, I was crazy for you
But now I know you'd thrill me so?
If this is love, well it's fabulous

Your lips close to mine, I get chills up my spine
And when we touch, I thrill so much
If this is love, well it's fabulous

I read in a book about love and it's charms
But I, I never knew until I held you in my arms

When I held you tight, I know, I know I am right
Cause only you can do what you do
If this is love, well it's fabulous

Well I always knew, I was crazy for you
But now I know you'd thrill me so?
If this is love, well it's fabulous

I read in a book about love and it's charms
But I, I never knew until I held you in my arms

When I held you tight, I know, I know I am right
Cause only you can do what you do
If this is love, well it's fabulous
If this is love, it's fabulous
If this is love, well it's fabulous
