

Fireside Song

Cliff Richard

Feel the evening glow
Nowhere to go
I'm staying home is where I love to be
And there's nothing more
Than the roar from the fire
Nowhere to go
I'm staying home is where I love to be

If someone calls
You can say I'm indisposed
Caught in the middle of a dream
And if someone phones
There is no need to disclose
That my dream is just a scheme
To feel you by my side

Forget the tide of yesterdays are gone
Since I met you
Nothing in sight
But the light from the fire
Nowhere to go
I'm staying home is where I love to be

With you
'Cause no-one else can do
The things you do
To make me feel secure
You don't have to speak a word
They just get in the way
And just one look and shows that I
Feel you by my side

Forget the tide of yesterdays are gone
Since I met you
Nothing in sight
But the light from the fire
Nowhere to go
I'm staying home is where I love to be
