

How Long is Forever

Cliff Richard

You ask me how the flowers grow
And what makes the glow-worm glow
How high is the sky, how long is forever

You want to know how any corn small
Grows to be a tree so tall
How deep is a sigh, how long is forever

Oh, (all) your little funny ways,
I just can't ignore
All the foolish things you say
Make me love you more

You ask me if, if my love is true
Here's the answer I give you
I'll be at your side as long as forever

Oh, (all) your little funny ways,
I just can't ignore
All the foolish things you say
Make me love you more
Forever...
