

# How We Get Down

Cliff Richard

When you lie to me baby  
Make it better than every other lie you told  
Oh no, make me try again, baby  
'Cause I wanna believe  
Somehow it won't be like before

Never wanna be there again  
Never want to pretend  
If we don't figure it out  
Baby, this is how we get down  
Baby, this is how we get down

And I don't wanna cry at the end  
And I don't wanna be friends  
If we ain't working it out  
Baby, this is how we get down  
Baby, this is how we get down

And I know, I don't wanna give up  
'Cause my heart's saying it's not about to  
Oh yeah, 'cause love ain't love, baby  
But what is love  
If I'm gonna have to make it without you

Never wanna be there again  
Never want to pretend  
If we don't figure it out  
Baby, this is how we get down  
Baby, this is how we get down

And I don't wanna cry at the end  
And I don't wanna be friends  
If we ain't working it out  
Baby, this is how we get down  
Baby, this is how we get down

And I know nobody's perfect  
Though we all got faults  
But it's nothing we can't fix  
As long as we got each other  
Love won't let us quit

Baby I don't want to ever doubt you  
It's impossible for me to ever live without you  
We're always complaining but I ain't changing  
Being it wrong, be it right, I'm with you for life

Never wanna be there again  
Never want to pretend  
If we don't figure it out  
Baby, this is how we get down  
Baby, this is how we get down

And I don't wanna cry at the end  
And I don't wanna be friends  
If we ain't working it out  
Baby, this is how we get down

Baby, this is how we get down

Get down baby  
Be there, no pretending  
See if you can figure this out  
This is how we get down

I don't wanna cry at the end  
And I don't wanna be friends  
If we ain't working it out  
Baby, this is how we get down  
Baby, this is how we get down

That's how we get down  
Ooh ooh ooh  
That's how we get down  
Ooh ooh ooh  
That's how we get down
