

I'm Looking Out The Window

Cliff Richard

I'm looking out the window
I'm waitin' at the door
To see if you'll be coming by
The way you did before
The way you did before

You told me you were taken
But now you've set me free
And I believed you when you said
Your only love was me
Your only love was me

I bought a silk to please you
I wear it every day
I wear it just a in case you'll call
I wore it yesterday
I wore it yesterday

I hear them talk about you
They say you're like the rest
They say you'll never break away
And I'm just second best
And I'm just second best

I'm looking out the window
I'm waitin' at the door
And hopin' you'll be coming by
The way you did before
The way you did before
