

Idle Gossip

Cliff Richard

Friends may after come to you with idle gossip
Should they say how love is true?
That's idle gossip
Let the rumours come and go
We'll prove to every one

We'll still carry on as though
Our love affair has just began
Now and then let's stop and kiss
While we aren't walking

Someone sure to know these things
And then start talking
In their idle gossip
They may say that I love you
And this time idle gossip will be true

Someone sure to know these things
And then start talking
In their idle gossip
They may say I love you
And this time, this time idle gossip will be true
