

Keep On Looking

Cliff Richard

I'll admit that I had my chance
I never gave it a second glance
I've seen her road and I stop and stare
I wasn't nervous when it said, "Beware"

But right now I'm thinking to myself
What is the matter with feeling high
When you know that soon
I'll be forgetting all the things I've done
Because I'm, I'm just looking for love
I'm just looking for love

Wo-o, gonna keep on looking
Wo-o, gonna keep on looking
Wo-o, gonna keep on looking
Looking for love

Never thought I was this kind of mad
Never knew the need to understand
Maybe once I may have felt this way
Maybe that was only yesterday

But right now I'm thinking to myself
What is the matter with feeling high
When you know that soon
I'll be forgetting all the things I've done
Because I'm, I'm just looking for love
I'm just looking for love

Wo-o, gonna keep on looking
Wo-o, gonna keep on looking
Wo-o, gonna keep on looking
Looking for love

But right now I'm thinking to myself
What is the matter with feeling high
When you know that soon
I'll be forgetting all the things that I've done
Because I'm, I'm just looking for love
I'm just looking for love

Wo-o, gonna keep on looking
Wo-o, gonna keep on looking
Wo-o, gonna keep on looking
Looking for love
Yeah, yeah

Wo-o, gonna keep on looking
Wo-o, gonna keep on looking
Wo-o, gonna keep on looking
Looking for love

I'm just looking for love
Got me looking for love
