Never Even Thought

Cliff Richard

Never even thougt it would happen to me Maybe I've been blind Only others can see I'm in love What am I to do. can I let it show Do I keep it to myself Or should I let her know I'm in love

Do I nurse it in my heart Hold it back in my eyes Hide it all inside Or put on a disguise I'm in love

Have I gotta play games Even suffer the pain Let the secret out Even suffer the doubt I'm in love

I know it's all there I really wanna share my life With someone else Will she feel the same

What am I to do.can I let it show Do I keep it to myself

Or should I let her know I'm in love It isn't so easy when you've broken before But it isn't so hard when you're ready for more Could you love me

Give me a simple clue Anything will do So long as I know What's in me is in you Could you love me

I've got so much of care to give away There's only one thing I wanna hear you say I love you...

Have I gotta play games Even suffer the pain Let the secret out Even suffer the doubt I'm in love

I know it's all there I really wanna share my life With someone else Will she feel the same
