

# Night Is So Lonely

Cliff Richard

At the night is so lonely  
And of dream of you only

You were the star in my heavens above  
I looked for you and found my own true love  
I love you, honest I do  
And I'm telling you

The night is so lonely  
And of dream of you only

You were the star in my heaven above  
I looked for you and found my own true love  
I love you, honest that's true  
And I'm telling you

The night is so lonely  
And of dream of you only  
Only, only
