

# No Matter What

Cliff Richard

We hurt each other  
That's something we know how to do  
We dig so deeply  
There's a grand canyon  
Between us before we're through

But no matter what I say  
I think I'm gonna lose  
No matter what  
I always end up loving you  
I always end up loving you

I turn my back  
And vow this time I won't give in  
Then out of nowhere  
Something inside me  
Says don't pretend

Cause no matter what I say  
I think I'm gonna lose  
No matter what  
I always end up loving you  
I always end up loving you

Maybe it's the way  
You let me live and let me grow  
Maybe it's the way  
You look to me  
How can I let you go

And no matter what I say  
I'll think I'm gonna lose  
No matter what  
I always end up loving you  
I always end up loving you
