

# Nothing Left For Me To Say

Cliff Richard

There's nothing left for me to say  
There are no words that can express the way  
I've got this feeling, it's all over now  
I never dreamed there'd come a day  
When there'd be nothing left to say

I guess that you've made up your mind  
But don't believe you'll leave nothing behind  
There's this heart and it's just aching now  
I never dreamed there'd come a day  
When there'd be nothing left to say

Nothing I could say could make you change your way  
Make you change your mind and stay with me  
Nothing I could say could make you change your way  
Make you change your mind and stay with me

There's nothing left between we two  
Though as I say the words, I know that their not true  
You're leaving, but I'm here with a love for you  
I never dreamed there'd come a day  
When there'd be nothing left to say
