

Steady With You

Cliff Richard

Steady with you, that's how I wanna be
Steady and true, you're all the world to me
Wishfully thinking as I lay half asleep
Life would be so heavenly, if you were mine to keep

Steady with you, it's just a crazy dream
Steady and true, you must know what I mean
It's not a child's game, it means life's happiness
The future holds for me, nothing but loneliness

My love for you is all important in my estimation
But I can't explain a way, this fatal fascination

Steady with you, it's just a crazy dream
Steady and true, you must know what I mean
It's not a child's game, it means life's happiness
The future holds for me nothing but loneliness
Nothing but loneliness
