That's My Desire

Cliff Richard

To spend one night with you In our old rendezvous And reminisce with you That's my desire

To meet where gypsies play Down in that dim caf' And dance till break of day That's my desire

We'll sip a little glass of wine And I'll gaze into your eyes divine I'll feel the touch of your lips Pressing on mine

To hear you whisper low Just when it's time to go Cheri, I love you so You're my desire

Oh... Cheri, Cheri, Oh...that's my desire
