

# This Time With You

Cliff Richard

Every time we're together  
My heart comes alive  
It feels so right  
When you're in my arms at night

The fear I have inside  
Suddenly dies  
In spite of my tortured past  
I got a feeling this will last

You bring to the table  
Something rare and new  
It's a change for the better  
And I think you feel it, too

Still I hope it's not a game  
'Cause I'm ready to commit  
As far as I'm concerned  
My heart says, "This is it"

Baby, baby, maybe  
This time with you  
I don't have to worry  
About you being untrue

No no, baby maybe  
This time with you  
I could have it all  
The joy and happy...happiness, too

It's hard to remember  
Ever feeling this good  
You've got me feeling again  
I didn't think I ever could

If I'm getting carried away  
Please let me know  
If I'm going too fast for you  
We can take it slow

So we're two lonely people  
Who need to take a chance  
If we do this thing right  
We can have a sweet romance

My need is getting stronger  
Can't hold out much longer  
Let's throw caution to the wind  
It's time to live again

Baby, maybe  
This time with you  
I don't have to worry  
About you being untrue

Oh baby, maybe  
This time with you

I could have it all  
The joy and happy...happiness, too

What you brought me, you taught me  
Fulfill my dreams  
You reassured me, you cured me  
You've been the best of everything  
The way you love me  
Put no one above me  
You got me down off the shelf  
I'm safe and secure  
I'll never want nobody else  
Love nobody else

Baby, maybe  
This time with you  
I don't have to worry  
About you being untrue

Ooh baby, maybe  
This time with you  
I could have it all  
The joy and happy...happiness, too

Baby, maybe this time with you  
I don't have to worry  
About you being untrue

I believe it, I receive it  
You're gonna be there for me  
I know, I know you love me

Baby, maybe  
This time with you  
I don't have to worry  
About you being untrue

Say that you love me  
And I love you, too  
Yeah, yes I will
