

# United For Evermore

Cliff Richard

The rain is beating down upon the highway  
But all this journey there is sunshine in my heart  
It won't be long 'til we're reunited, oh yeah

Are you really sure we have to say goodbye, oh  
Every tear has made it hard to justify  
And you know it wasn't easy  
So many nights I prayed  
Waiting for this day

Even when we were miles apart  
I just close my eyes and you're here in my heart  
By the ocean, through the shore  
We'll be united for evermore

And I was working through the midnight hour  
And I'd see your message was the only, "Welcome Home"  
And did you know that kept me going, yeah  
You were stronger even though we felt the same, yeah  
You would always find a way to ease my pain  
And I couldn't live without you  
The willing time away, ready for this day

Even when we were miles apart  
I just close my eyes and you're here in my heart  
By the ocean, through the shore  
We'll be united for evermore

Nothing on earth can stand in our way  
You're the one that I adore  
We'll be united for evermore  
Yeah, yeah

Ain't no distance can divide us  
Been so long but love has tied us  
Can't believe today will find us  
Reunited

Ain't no distance can divide us  
Been so long but love has tied us  
Can't believe today will find us  
Reunited

Ain't no distance can divide us  
Been so long but love has tied us  
Can't believe today will find us  
Reunited
