

We Have It Made

Cliff Richard

Wake up darling, we have it made
Get out of the Sun, into the shade
Come take my love, don't be afraid
We have it made

Wake up darling, don't be ashamed
For you and I, are both to blame
Let's make up darling, don't be afraid
We have it made

Love is so wonderful
Love is so grand
Two hearts are beautiful
When they understand

So let's make up darling, don't be ashamed
For you and I, are both to blame
Come take my love, don't be afraid
We have it made
We have it made
