

Where Did The Summer Go

Cliff Richard

(Where did the summer go, ooh-ooh...)
It all went by so very fast
The sunny skies and the green, green grass
The carefree days we wandered through
The crazy things we used to do
Where did the summer go
Where did the summer go
Each happy golden memory
Will always be a part of me

We walked along the golden sand
I kissed your lips and you held my hand
I still can see the ice cream, drinks
The chocolate smeared upon your face
Where did the summer go
Where did the summer go
Each happy golden memory
Will always be a part of me

We had such fun together
You and I (you and I)
I guess we never noticed
How the days went flying by
Where did the summer go
Where did the summer go
Each happy golden memory
Will always be a part of me
