

Working After School

Cliff Richard

Working after school
I can't go dancing with you
Working after school
Won't be romancing with you
Saving up my money
To buy a ring for you

Working after school
No time to kiss you baby
Every afternoon
I really miss you baby
I want you to know it
Because my love is true

Saturday and Sunday
We'll have time to be together
I will hold you tightly
And you'll be mine forever
Forever mine, forever

Working after school
Each moment thinking of you
Working after school
And all the time I love you
Working for the future
That I'll share with you

I can't go dancing with you
Won't be romancing with you
Saving up my money
To buy a ring for you

Saturday and Sunday
We'll have time to be together
I will hold you tightly
And you'll be mine forever
Forever mine, forever

Working after school
Each moment thinking of you
Working after school
And all the time I love you
Working for the future
That I'll share with you
Working for the future
That I'll share with you
