

# Hold On Through the Night

Climie Fisher

The city's asleep as you lie awake and watch the ceiling  
Wondering why you lie alone, pride is a demon  
It makes us say things we wish we'd never said, believe me  
I know I was wrong I hurt you girl and I made you cry  
I built a wall around me, but now I've found that  
I've got to have you by my side

Hold on, hold on through the night, hold on  
Don't give up your love I'm comin'  
Hold on, hold on through the night, hold on  
I'm gonna make it up to you girl

How can I make you understand I'm only human  
I made a mistake but my love is strong and I'm gonna prove it  
If you give me a chance, we can make it work again  
Oh if you only let it, you won't regret it  
I'll be there as fast as I can

Hold on, hold on through the night, hold on  
Don't give up your love I'm comin'  
Hold on, hold on through the night, hold on  
I'm gonna make it up to you girl

You know the silence says it all  
Watch the shadow on the wall  
Don't tell ya something, we belong

Don't give up, don't give up, don't give up, don't give up  
Don't give up, don't give up, don't give up, don't give up

Feel the start of a new flame burning  
If you only let it, you won't regret it  
I'll be there just as fast as I can  
Gonna love you like you've never been
