

# It's Not Supposed to Be That Way

Climie Fisher

It's not supposed to be that way  
It doesn't have break your heart  
It's the tragedy of love today  
People tearing themselves apart

It's not supposed to end soon  
It doesn't have to make you cry  
Like strangers in a lonely room  
Where lovers used to lie

Why do we have to fight  
We know we're right for each other  
So sad to let love die  
There's so much left to discover

It's not supposed to be that way  
It doesn't have to hurt so bad  
To give up now's a big mistake  
We'll waste all the love we had

We used to laugh together  
Now we just cry alone  
I hear the sound of your footsteps  
Echoing down the hall  
Telling me you're about to go oh no

It's not supposed to be that way  
It doesn't have to hurt so bad  
To give up now's a big mistake  
We'll waste all the love we had

Why do we have to fight  
We know we're right for each other  
Just give me one more try  
Trust in me we'll recover

It's not supposed to be that way  
It doesn't have break your heart  
It's the tragedy of love today  
People tearing themselves apart

It's not supposed to be that way  
It doesn't have to hurt so bad  
To give up now's a big mistake  
We'll waste all the love we had
