

Power of the Dreamworld

Climie Fisher

Always knew our paths would cross
Even when I lost
I waited, patiently, I waited

Never stopped believing once
Knew all along, I'd get my chance
And I'd take it, oh yes, I'd take it

I was searching everywhere
But when I saw you standing there
Knew I found the answer to my prayer

The power, power of the dream world
Brought your sweet love to me
The power, power of the dream world
Set me free

You're like a breath of ocean air
When I feel you lying there
Beside me, so close, beside me

And everyday the love we make
Takes me to a higher place
Revives me, you always, revive me

And I feel your magic shining through
Like sunlight through a precious jewel
No I can't stop it drawing me to you

Long ago, I thought about you endlessly
I knew in time our eyes would meet
And that you'd become reality
