

For The Season

Clinic

For the season, in your mind
For the seasons, where you find

All you want's what you can get
All you want's we should forget

In the circle, in the wheel
In the circle, where you feel

All you want's what you can get
All you want's we should forget

Cos oh I know you
Oh I have been you
And so you continue
With an awl for your jester

All you want's what you can get
All you want's we should forget

Cos oh I know you
Oh I have been you
And so you continue
With an awl for your jester

For the season
For, for the season
