

Young & Stupid

Close To Home

Give me one good reason
For your hate and jealousy
The grudge you hold onto
Is unjustly about me
I've struggled and fought
Given all my efforts and thoughts
I've suffered for this
Your words show your ignorance

Let it go, let it go
Cause we were all once young and stupid
Whoa, like all the time we spent just made our efforts
useless
They don't know what we know
Or the sacrifice it took to get here, no
In the end it never mattered
I'm where I should be!

I always knew this day would come
The culmination of dreams since I was young
I've got my sights set for the top
And I'm not leaving til' that's just what I got

I've got something to prove!
So can we say that this is over

Let it go, let it go
Cause we were all once young and stupid
Whoa, like all the time we spent just made our efforts
useless
They don't know what we know
Or the sacrifice it took to get here, no
In the end it never mattered
I'm where I should be

(3, 2, 1)

The world won't just disappear when you close!
Your eyes!
The world won't disappear when you close!
When you close your eyes!

You seem to think this isn't over...

Let it go, let it go
Cause we were all once young and stupid
Whoa, like all the time we spent just made our efforts
useless
They don't know what we know
Or the sacrifice it took to get here, no
In the end it never mattered...

Let it go, let it go
Cause we were all once young and stupid
Whoa, like all the time we spent just made our efforts
useless

They don't know what we know
Or the sacrifice it took to get here
No, in the end it never mattered
I'm where I should be!
