

# Lights On The Chrome

Cloud Control

Hey let's go, get away  
I wanna go every minute of the day  
Rise from your till  
Rise from your grave  
Change in the dawn  
Change lanes and we slow down

Lights on the chrome  
Riding a crow  
Lights in the day  
Lights up get a call on the phone  
Lights in the zone  
Right in the bay  
I think I'm going home

Yeah, all the lights are chrome  
All the lights, all the lights  
All the lights but this one  
Yeah, yeah  
All the lights are chrome  
All the lights, all the lights  
All the lights but this one

Cause I'm riding a crow  
Like nothing's wrong  
I'm in the zone  
I wait for the green when I'm broke  
Back to the place  
Home and away  
I think I'm gonna stay

Yeah, all the lights are chrome  
All the lights, all the lights  
All the lights but this one  
Ah yeah, yeah  
All the lights on chrome  
All the lights, all the lights  
All the lights but this one

Look down at the track  
Not going back  
Time marches on  
When you blink and it's gone  
Blink if it's true  
When I blink I see you  
Good isn't gonna  
Think that we want  
Dust on the wind  
Wind falls in the breeze  
Wind like a crow  
Up down and we freeze  
Just going home  
Back to the place  
Back to the zone  
Lights on the chrome

Ah ah ah

Ah ah ah

Take it on my own  
I'll take it on my own  
I'll take it on my own

Ah yeah  
All the light are chrome  
All the lights  
All the lights but this one  
Ah yeah, yeah  
All the lights are chrome  
All the lights (all the lights)  
All the lights but this one  
Ah damn yeah  
All the lights are chrome  
All the lights (all the lights)  
All the lights but this one  
Ah yeah, yeah  
All the lights are chrome  
All the lights, all the lights  
All the lights but this one

This one's red  
This one's red
