

Now Hear In

Cloud Nothings

I go outside and see all these things that should be real
Come on you're a part of it can you but can you feel
You're not the same as me but I know we share a thing

I can feel your pain, and I feel alright about it

We're moving quickly to sun
(Now hear in)
I feel there's nothing left to say
(Now hear in)
A simple life could be so strange
(Now hear in)
Refuse to (Now hear in)

You know there's nothing left to say
