

Vast space, directed signals  
Blackness beyond belief  
Clear message, soul in torment  
Fatal error, the human factor  
Computer science cold and strict  
Tube nutrition, vitamine x  
Metal casing, coffin appearance  
Feeling the comfort  
Meet the brothers who share your fate  
Eons of time  
Expendable beings

Make me feel  
Drain my life again (cry no more)  
Leave me be (I will ease your pain)  
Faceless beings  
Exploring my mind (light your life)  
Let it end (rely in our warmth)

Plastic life  
Surrounding darkness  
A first class betrayal  
Read my mind diary

Dreamless pain, artificial sleep  
Unreliable briefing  
Assignment starts, never ends

Trauma thoughts, recorded in cortex  
Connecting the reader  
Give judgement, bring sentence, committer will pay

Ancient story, bleeding memories  
Greeting the void, dim the light  
Outer limits my final frontier

Eons of time  
Expendable beings  
Lost, cold and lonely  
Read my mind diary
