

# Thunders of Extreme

Cloudscape

All flowers will soon fade away  
If we don't realize  
We have to stand up for our world  
You have to put aside your fear and start to act  
Our world is crying out for help

Dramatic atmospheric turns  
Our future of unknown  
Mother earth is crying helplessly  
Common man denies the fear and reality

Through thunders of extreme  
Our nature tells us to behave  
We still don't believe  
Lightning strikes across the lands  
A message we should understand  
We took too much for granted

No more dreams to carry on  
If we close our eyes  
It's our time to show our strength  
No more excuses and denial  
We're at the edge of our time  
It's time to cherish our world

Dramatic atmospheric turns  
Our future of unknown  
Mother earth is crying helplessly  
Common man denies the fear and reality

Through thunders...
