

# Heaven

Clouseau

Heaven  
Is the place where I would be  
But no one  
Can escape reality  
I should have known but you were on my mind  
It's raining  
On a cold and weary day  
I'm hiding  
Are you with me in a way  
I wish you knew you've been on my mind  
You can't deny what is real  
But it's true  
In my heart I know what I feel  
That heaven  
Is the place for us to be  
But no one  
Can escape reality  
But you should know you're always on my mind  
You can't deny what is real  
But it's true  
In my heart I know what I feel  
That heaven is the place for you  
Heaven is the place for me  
Heaven is the place for you and me  
Heaven  
In heaven
