

Nightstalker

Cloven Hoof

Never pay no heed to those
who oppose my lifestyle
Feel no remorse for the wrong
that I've done
I constantly abuse all who try
to use me
Like a fallen angel banished
from the sun

Chorus

Cause I'm the Night Stalker,
feel the cold caress of knife
Stealthily advancing to cut out
your life
Yeah the Night Stalker, assassin
at your back
Skulking in the shadows
poised for attack

Prowling these streets at night,
I fight a deadly game of survival
Stealing through the concrete
jungle with bloodlust in my
brain
All here fear me I'm ruthless
as I'm godless
A predator of the side walk in
his alley-way domain

(Chorus)

Society brands me a homicidal
madman, but they cannot
cage what they cannot see
When I'm coming you as
good as a dead man
Ain't no one alive that can
elude me

(Chorus)
