Never pay no heed to those who oppose my lifestyle
Feel no remorse for the wrong that I've done
I constantly abuse all who try to use me
Like a fallen angel banished from the sun

## Chorus

Cause I'm the Night Stalker, feel the cold caress of knife Stealthily advancing to cut out your life Yeah the Night Stalker, assassin at your back Skulking in the shadows poised for attack

Prowling these streets at night,
I fight a deadly game of survival
Stealing through the concrete
jungle with bloodlust in my
brain
All here fear me I'm ruthless
as I'm godless
A preditor of the side walk in
his alley-way domain

## (Chorus)

Society brands me a homicidal madman, but they cannot cage what they cannot see When I'm coming you as good as a dead man Ain't no one alive that can elude me

(Chorus)
