

## Anybody Scene My Cobra?

Cobra Skulls

When bands are talking shit about the other bands in town  
And just to get ahead they drag each other down  
When venues only cater to promoters with a national act  
That don't care for the local bands there might be

No scene, no scene, no scene  
No camaraderie, this might as well be battle of the bands  
No scene, no scene, no scene  
No common enemy, we might as well be playing in a talent show  
I don't want to be no scene  
I don't want to be no scene

You know there's a basement show where the kids can go  
But you've got to be elite  
They're making every standard so impossible to meet  
At 21 and over you get to play the club  
Where the disenchanted go to show no love
