

# The World Will Never Do

Cobra Starship

A precocious kid always had to do it my way  
Go on tell 'em what I did  
I always will admit it my way  
Always had my eyes set on the top  
Everybody want what they never did got

I know it sounds cliché, but you know it's true:  
Girl there's no me without you

Who wants the world?  
The world will never do  
Who wants the world?  
The world will never do  
Who wants the world?  
The world will never do  
Who wants the world to deceive them

We've got no reason to be alone now  
We got no reason to be what they want us to be

I'm taking my time  
'Cause I know, soon you'll be mine  
That's for sure

I'll show you the way it could be  
Just pay for my crimes, the rest is free

Who wants the world?  
The world will never do  
Who wants the world?  
The world will never do  
Who wants the world?  
The world will never do  
Who wants the world to deceive them

We've got no reason to be alone now  
We got no reason to be what they want us to be

[B.o.B.]  
Yea I'm falling out the sky without a parachute  
Wit' ideas and beliefs that you never knew  
Still readin' up, start an evolution  
No some say that's what the world will never do  
Until then the plan is on the revenue  
Its politics as usual but I don't wear a suit  
But even still its what I'm compelled to do  
So just read between the lines girl I'm telling you

So you gotta stick with me like Elmer's Glue  
'Cause I gotta be rollin' with the soldiers through the desert blue  
And just know I'm in the storm resolutin'  
Because if I ain't on the job the world would never move.

Who wants the world?  
The world will never do  
Who wants the world?  
The world will never do

Who wants the world?  
The world will never do  
Who wants the world to deceive them

We've got no reason to be alone now  
We got no reason to be what they want us to be
