

Runnin' Riot (live)

Cock Sparrer

Running riot for you
Things you say and things you do sure worry me,
When were out on the street making money for you and your society.
It seems to me the time is right, for another generation
and another street fight.
Got no future, sure got a right, I got a right to live

Cos I can't stand the peace and quiet
All I want is for a runnin riot
I can't stand the peace and quiet
All i want is a running...Riot!

Don't you try to understand the way we feel
Flash limousines and mortgages ain't no big deal
I've got no friends who want to be
living like you when they're thirty three
Getting old sure bothers me
It bothers me to death

Cos I can't stand the peace and quiet
All I want is for a runnin riot
I can't stand the peace and quiet
All I want is a running...Riot!
Cos I can't stand the peace and quiet
All I want is have a runnin riot
I wanna riot!
I can't stand the peace and quiet,
All I want is have a running
I just wanna Riot!
